

## What does the \$5 Medical Service include?

### Health Check-ups:

Get an examination to monitor your health status, identify potential concerns, and receive personalized advice for a healthier lifestyle.

### Prescription for Medications:

A range of generic prescription medications are prescribed by our qualified medical experts, with the exception of controlled substances. No controlled medications are kept on site.

### Basic Lab Tests:

Receive essential lab tests to help diagnose and monitor various health conditions. Early detection is key to maintaining good health!

Rest assured your privacy and confidentiality are our top priorities. Your personal information will always be handled securely and with the utmost discretion.
